

Associate in Applied Science

Technology & Manufacturing

THE PROGRAM

The Associates of Applied Science (A.A.S.) in Technology & Manufacturing is intended to prepare students for the diverse field of industrial maintenance. Using an interdisciplinary approach, students learn key concepts necessary to successfully construct, install, repair, and maintain a host of electrical and mechanical industrial processes and applications. Students can choose an area of specialty, or they can cross-train in any combination of concentrations for the degree: Computer-Aided Design, Electronics, Manufacturing or Welding. Critical skills include print reading, industrial safety, electrical troubleshooting, preventive maintenance practices, welding, machining, and automated systems diagnosis and repairs. Requires 60 credit hours.

The Technology & Manufacturing program is part of the Manufacturing Career Cluster. Pathways for this degree include Production, Manufacturing Production Process Development, Maintenance, Installation & Repair, Quality Assurance, Logistics & Inventory Control, and Health, Safety & Environmental Assurance. For more information, visit www.careertech.org/career-clusters/.
