Summary

Transfer Program	Transfer of Kishwaukee Associate Degree in Nursing to Southern Illinois University Edwardsville RN/BS in Nursing
Kishwaukee College Program	Kishwaukee College Nursing Program students
Summary	<p>The purpose of this Associate degree to Bachelor's degree Pathway Program is for KC students to be able to obtain a Bachelor's degree in Nursing at SIUE after attending Kishwaukee College. KC students will complete an Associate degree and the majority of the general education requirements in preparation for attending the RN/BS Program at SIUE School of Nursing. Upon completion of the requirements of both institutions, a student will qualify for an Associate in Applied Science degree from Kishwaukee College, and then a Bachelor of Science degree in nursing from SIUE.</p>
Student Admissions Eligibility	<ol style="list-style-type: none">1. A student is required to submit a Pathway Application for Admission to SIUE. This application is submitted after the student is enrolled in the Associate Degree in Nursing track at KC. Although a student will be admitted to SIUE upon receipt of the application, the student will not matriculate to SIUE until minimum admission standards have been achieved and all prerequisite coursework is completed. This should be accomplished through the successful completion of the outlined curriculum included in this Agreement.2. The SIUE program curriculum will remain unchanged from a student's point of admission throughout continuous enrollment and timely completion of degree requirements. A student failing to complete requirements within the timeline established by SIUE policy may be subject to new and/or revised requirements.3. Prior to the student's anticipated entry term, SIUE will review the student's academic progress to ensure that admission requirements to the University have been satisfied. Students meeting requirements will be eligible to enroll at that time.4. A student who is satisfactorily completing the first two semesters of the curriculum at KC as outlined in the BS in Nursing Partnership progression plan and has completed required prerequisite coursework, will be admitted directly to the SIUE RN/BS program and may enroll in NURS 240R and NURS 335R during their third and fourth semester, prior to obtaining RN licensure. Once a student has successfully completed the ADN program at KC and licensure as a registered nurse is obtained, a student may progress through the remaining RN/BS nursing courses (NURS 472R, 475R, 484R, and 480R). Upon enrollment in NURS 475R, SIUE will award 40 or 43 proficiency credits for nursing course work completed in the associate degree within the nursing program at KC.

Option A

Pathway Program ADN to BS

Kishwaukee College Associate Degree in Nursing Pre-Nursing Course Work		
KC Course		Hours
BIO 103	General Biology	3
BIO 105	General Biology Laboratory	1
COM 100 ^{2,3}	Oral Communication	3
ENG 103 ^{2,3}	Composition I	3

Transfer Center: Polly Walters - powalte@siue.edu 618-650-2838

****Students must complete 50% or more of SIUE degree requirements at SIUE.**

Once a student entering the RN/BS program provides evidence of a current unencumbered RN license, the School of Nursing will complete an overall assessment of the student's work experience and the previously completed community college and university nursing coursework. The School of Nursing may then grant up to 40 or 43 proficiency credits to provide the student with advanced standing in the nursing program. These credits differ from the transfer of courses. If the student's college/university credits are greater than 5 years old, the candidate will need to submit a portfolio to demonstrate proficiency in the areas in which credit is sought along with evidence of a current unencumbered RN license.
